Mind Block: This is the ability to completely close or block oneself from all psychic/mental emanations. A Mind Block will prevent penetration of Telepathy, Empathy, Hypnotic Suggestion, Day Dream and Empathic Transmission. It can be an invaluable protective mask when dealing with malevolent psychic forces. Adds a bonus of +1 to save vs all psychic and mental attacks. Note: Mind Block only blocks psionic attacks that affect the psychic's mind or emotional state (i.e. Telepathy, Empathy, Hypnotic Suggestion, etc.). It offers not protection from magic. Learned at level 1. Range: Self.; Duration: 10 minutes per level of experience.; I.S.P.: 4 (per each duration period). (Rifts Ultimate Edition, Psionic Powers: Mind Block).

Sense Evil: Feel supernatural evil automatically without ISP; activate the power for approximate number, strength, location and tracking. Human evil registers only with immediate evil intent plus psychic powers or psychosis, and Mind Block may mask it. Learned at level 1. Range: 140 feet (42.7 m) area.; Duration: 2 minutes (8 melees) per level of experience.; I.S.P.: 2; Saving Throw: None. (Rifts Ultimate Edition, Psionic Powers: Sense Evil).

Telepathy: Read one person's surface thoughts at a time; no deep memory probe or simultaneous reading. Send brief directed messages to one recipient; two-way conversation requires both participants to have telepathy. A suspected probe permits a standard save, and Mind Block prevents probes or communication. Learned at level 1. Range: Read surface thoughts up to 60 feet (18.3 m) away or two-way telepathic communication up to 140 feet (42.7 m) +40 feet (12.2 m) per level of experience.; Duration: 2 minutes per level of experience.; I.S.P.: 4; Saving Throw: Conditional. When a character suspects he is

being telepathically probed he can resist, getting the standard saving throw. Mind Blocks will completely prevent telepathic probes or communications as long as the block is up. (Rifts Ultimate Edition, Psionic Powers: Telepathy).

Combat conditions (Ultimate Edition pp. 341,
344–348, 361):
Shooting contexts are training examples; actual
weapon modes, burst lengths, ammunition and
capacity remain pending.
Gun shooting excludes P.P., general
hand-to-hand strike and strength damage
bonuses. Assassin's explicit gun-strike gains
apply separately from W.P.; bursts halve only
the W.P. contribution. Untrained shooters
cannot make aimed shots.
Gun dodge requires seeing the attacker and
knowing the shot is coming; subtract 10 within
10 feet or 5 within 50 feet. Athletics and
hand-to-hand dodge bonuses do not apply to
gunfire or energy blasts (p. 361).
Augmented Strength: Use the Augmented P.S.
table for action damage; these examples are
descriptive. Power punches/kicks use two
actions. At P.S.24 they inflict1 M.D.;25-27:1D4
M.D.;28-30:1D6 M.D.;31-40:2D4 M.D. Higher
ranges have their own restrained/full/power
entries. S.D.C. strength bonuses are not added
to M.D. For other attacks and targets, follow the
source table and weapon description rather than
normal-human damage examples.
Other special hand-to-hand moves remain
pending.
Hand to Hand: Martial Arts: Body flip/throw
costs one action; victim loses initiative and one
attack. A successful roll with impact halves the
damage.
Hand to Hand: Martial Arts: Power Kick takes
two actions, doubles base kick dice and adds
P.S./Hand to Hand damage bonuses once
(user-confirmed interpretation). It cannot
combine with Leap Kick; knee and
non-damaging moves have no power variant.
Ultimate Edition p.345; style permission
pp.347–348.
Hand to Hand: Martial Arts, training level 3: All
foot strikes except leap kick are available. Knee:
1D6. Back sweep/trip/leg hook: no damage;
knockdown costs victim initiative and one action.

Surface swimming covers three times P.S. in
yards/meters each melee round for P.E. minutes
before fatigue. No attribute, S.D.C. or combat
bonus is granted. A failed roll leaves the
swimmer afloat without covering distance. Three
consecutive failed rolls cause submersion and
drowning unless rescued. Non-powered M.D.C.
armor swimming requires staying afloat,
depending on armor weight; no buoyancy
formula is provided. Power armor swimming is
permitted. Surface swimming has the fatigue
rate of running and is medium to heavy exertion,
especially fast or long distances. Conditional
storm and armor checks are shown separately;
they do not automatically resolve simultaneous
