Attribute generation options do not apply to resource dice.

Mutant physical S.D.C. starts at 30. Reviewed Body Building and Running contributions apply when selected. Other Physical skill, unusual characteristic and other power contributions remain unfinished.

Extraordinary Physical Endurance adds its recorded HP and S.D.C. dice while active, including one retained D4 for each attained level, starting at level 1. Its P.E. addition affects the starting HP snapshot only if active at initial generation. Later removal or acquisition never rewrites that snapshot.

Other power resources and later Heroes advancement remain unfinished.

maneuvers are shown as guidance; later attack choices, other power/category progression and special paths remain unfinished.

Shared grants occur once with the highest eligible program bonus. Universal Basic Mathematics receives its scholastic bonus once when selected in a supported program; this duplicate-grant reconciliation is an explicit implementation interpretation. Secondary selections never add an education bonus.

Business, Medical Assistant, Computer and Communications fixed grants/explicit alternatives plus Physical/Athletic weighted choices, supported Secondary selections and two universal percentages are automated. Other programs, remaining skill catalogs, repeated-program category choices, Street literacy trades and later advancement remain unfinished.

Universal Speak Native Language (+25%) and Read/Write Native Language (+20%) remain source guidance. Native speaking base is unspecified; educated native literacy is 98%, and Street Schooled literacy is 30% +2% per level unless trading a skill. Their arithmetic interaction remains pending. Education bonuses apply once to scholastic skills; I.Q. bonuses apply once to all supported skills. Ordinary proficiency is capped at 98%.

High School does not permit Business, Medical Assistant or Communications (original printed 45 / PDF 46, restriction item 1). Honor-system choices stay saved without an ineligible scholastic bonus. Earlier exact pins require an explicit reviewed update.

Paramedic treatment procedures remain source guidance: serious injury/coma uses two successes out of three checks; a failed attempt can be retried by another character or after six minutes concentrating. This creator displays proficiency, not an in-session treatment simulator.

Physical/Athletic selects four weighted choices from the reviewed Physical catalog. Repeated-program remaining-category entitlements, other

Physical skills and Physical Training power-category rules remain unfinished.
