Skills and character notes

Power outcome and starting allowance (continued)

Saving values include reviewed ordinary M.E., P.E. and selected power contributions only. Other modifiers remain pending.

Named power bonuses are roll additions. Unknown targets depend on the triggering drug, Horror Factor, possession or illusion rule.

Possession targets depend on the triggering ability and psychic status.

Ordinary M.E. bonuses stop at 30; below 16 has no exceptional bonus. Below 1 is unreviewed and remains blank.

P.E. poison and magic roll bonuses stop at 30. Coma/death bonuses are percentage points; above 30 they continue one point per P.E. point. Targets depend on the triggering rule. Below 16 has no exceptional bonus; below 1 is unreviewed.

Physical: Hand to Hand: Martial Arts; attacks +2, initiative +2, pull punch +3, roll with impact +3

Heroes Unlimited - RPG - 2E, printed pp. 55, 71 / PDF pp. 56, 72

Hand to Hand: Martial Arts: Hand to Hand: Martial Arts costs 3 Secondary selections. Only the active training profile contributes combat effects.

Hand to Hand: Martial Arts: Trained parries are automatic; a dodge consumes one action. Additional attacks replace the untrained contribution.

Hand to Hand: Martial Arts: Later bonuses and maneuvers await Heroes advancement; current characters support level 1 only.

Physical: Boxing; PS +2, SDC +12 (dice [4, 4, 4]), attacks +1, dodge +2, parry +2, roll with impact +1

Heroes Unlimited - RPG - 2E, printed pp. 55 / PDF pp. 56

Boxing: Boxing adds one attack per melee, parry+2, dodge+2, P.S.+2, roll with impact+1 and S.D.C.+3D6. Effects apply once; recorded S.D.C. dice survive removal and reselection.

Boxing: When fighting with fists, a natural 20 automatically knocks out an ordinary opponent for 1D6 melees. No knockout announcement is required.

This does not apply to every weapon attack.

Boxing: Bionic characters, alter-physical-structure heroes, mineral aliens and characters with superhuman strength or tough bodies are stunned instead: -4 to strike, parry and dodge. No separate stun duration is stated here.

Boxing: Boxing combines with the active Hand to Hand profile and other Physical skills. It does not grant a training profile or change the action cost of an untrained parry.

Boxing: Attribute generation options and exceptional bonus dice do not apply to Boxing S.D.C. dice. Knockout duration is an encounter roll, not a character-generation roll.

All heroes have two baseline attacks. At level 1, untrained characters gain one additional action; the active training profile replaces that contribution.

All reviewed training gives automatic parry; untrained parry and any dodge consume one action.

Power strikes double base dice and add ordinary P.S. damage once; each consumes two actions.

Low attributes, enhanced strength types, other training, Physical skills, proficiencies, powers, equipment and Heroes advancement remain unfinished.

Starting resources retain recorded contributions; later attribute changes do not reroll them.

Hit Points: 16; starting-physical-endurance: 12; starting-hit-point-die: 4 (dice [4])

Heroes Unlimited - RPG - 2E, printed pp. 20 / PDF pp. 21

Starting Hit Points retain effective P.E. when first generated plus one recorded D6. Later attribute edits do not retroactively change that contribution.

Attribute generation options do not apply to resource dice.

Mutant physical S.D.C. starts at 30. Reviewed Body Building and Running contributions apply when selected. Other Physical skill, unusual characteristic and other power contributions remain unfinished.

Potential Psychic Energy uses the general superbeing 6D6 rule; no Mutant exception is stated. Other category-specific energy rules remain unfinished.

Heroes advancement, other category resources, money, vehicles and equipment remain unfinished. Manual fixed totals and additive adjustments are available.

Extraordinary Physical Endurance adds its recorded HP and S.D.C. dice while active, including one retained level-1 D4. Its P.E. addition affects the starting HP snapshot only if active at initial generation. Later removal or acquisition never rewrites that snapshot. Other power resources and Heroes advancement remain unfinished.

Skills and character notes

Shared grants occur once with the highest eligible program bonus. Universal Basic Mathematics receives its scholastic bonus once when selected in a supported program; this duplicate-grant reconciliation is an explicit implementation interpretation. Secondary selections never add an education bonus.

Business, Medical Assistant, Computer and Communications fixed grants/explicit alternatives plus Physical/Athletic weighted choices, supported Secondary selections and two universal percentages are automated. Other programs, remaining skill catalogs, repeated-program category choices, Street literacy trades and advancement remain unfinished.

Universal Speak Native Language (+25%) and Read/Write Native Language (+20%) remain source guidance. Native speaking base is unspecified; educated native literacy is 98%, and Street Schooled literacy is 30% +2% per level unless trading a skill. Their arithmetic interaction remains pending. Education bonuses apply once to scholastic skills; I.Q. bonuses apply once to all supported skills. Ordinary proficiency is capped at 98%.

High School does not permit Business, Medical Assistant or Communications (original printed 45 / PDF 46, restriction item 1). Honor-system choices stay saved without an ineligible scholastic bonus. Earlier exact pins require an explicit reviewed update.

Paramedic treatment procedures remain source guidance: serious injury/coma uses two successes out of three checks; a failed attempt can be retried by another character or after six minutes concentrating. This creator displays proficiency, not an in-session treatment simulator.

Physical/Athletic selects four weighted choices from the reviewed Physical catalog. Repeated-program remaining-category entitlements, other Physical skills and Physical Training power-category rules remain unfinished.
