Power outcome and starting allowance (continued)

S.D.C. receives 4D4 times 10; Hit Points receive 3D6 plus a retained D4 for each attained experience level, including level 1 under the confirmed interpretation.

Removing and reselecting reuses all acquired dice. Initial HP retains effective P.E. at its generation step; later P.E. changes do not rewrite that starting contribution.

Fatigue occurs at one tenth the normal rate. Ordinary P.E. saving bonuses apply; the power grants no separate direct saving bonus.

Heroes advancement is not yet implemented; current characters support level 1 only.

Swimming: Selected fatigue-rate powers modify endurance time independently of Swimming proficiency and pace. Ordinary duration and the power source remain shown separately.

Swimming: Swimming grants no attribute, S.D.C. or combat bonus.

Physical: S.C.U.B.A. (Advanced Swimming);

S.C.U.B.A. (Advanced Swimming) pace: 40 yards/meters per melee; 210 minutes; ordinary 21 minutes; fatigue 1/10 normal.

S.C.U.B.A. (Advanced Swimming): Routine equipment-assisted underwater pace is twice effective P.S. in yards/meters per 15-second melee; ordinary duration equals effective P.E. minutes. Routine activity is light; fast swimming and combat are strenuous.

S.C.U.B.A. (Advanced Swimming): The stated maximum safe depth without the bends is about 120 feet (36.5 meters). Deeper dives need appropriate depressurization, special suits or submarines; decompression and equipment selection are not simulated here.

All heroes have two baseline attacks. At level 1, untrained characters gain one additional action; the active training profile replaces that contribution.

All reviewed training gives automatic parry; untrained parry and any dodge consume one action.

Power strikes double base dice and add ordinary P.S. damage once; each consumes two actions.

Low attributes, enhanced strength types, other training, Physical skills, proficiencies, powers, equipment and Heroes advancement remain unfinished.

Starting resources retain recorded contributions; later attribute changes do not reroll them.

Starting Hit Points retain effective P.E. when first generated plus one recorded D6. Later attribute edits do not retroactively change that contribution.

Attribute generation options do not apply to resource dice.

Mutant physical S.D.C. starts at 30. Reviewed Body Building and Running contributions apply when selected. Other Physical skill, unusual characteristic and other power contributions remain unfinished.

Potential Psychic Energy uses the general superbeing 6D6 rule; no Mutant exception is stated. Other category-specific energy rules remain unfinished.

Heroes advancement, other category resources, money, vehicles and equipment remain unfinished. Manual fixed totals and additive adjustments are available.

Extraordinary Physical Endurance adds its recorded HP and S.D.C. dice while active, including one retained level-1 D4. Its P.E. addition affects the starting HP snapshot only if active at initial generation. Later removal or acquisition never rewrites that snapshot. Other power resources and Heroes advancement remain unfinished.

Shared grants occur once with the highest eligible program bonus. Universal Basic Mathematics receives its scholastic bonus once when selected in a supported program; this duplicate-grant reconciliation is an explicit implementation interpretation. Secondary selections never add an education bonus.

Business, Medical Assistant, Computer and Communications fixed grants/explicit alternatives, supported Secondary selections and two universal percentages are automated. Other programs, remaining skill catalogs, repeated-program category choices, Street literacy trades and advancement remain unfinished.

Universal Speak Native Language (+25%) and Read/Write Native Language (+20%) remain source guidance. Native speaking base is unspecified; educated native literacy is 98%, and Street Schooled literacy is 30% +2% per level unless trading a skill. Their arithmetic interaction remains pending. Education bonuses apply once to scholastic skills; I.Q. bonuses apply once to all supported skills. Ordinary proficiency is capped at 98%.

High School does not permit Business, Medical Assistant or Communications (original printed 45 / PDF 46, restriction item 1). Honor-system choices stay saved without an ineligible scholastic bonus. Earlier exact pins require an explicit reviewed update.

Paramedic treatment procedures remain source guidance: serious injury/coma uses two successes out of three checks; a failed attempt can be retried by another character or after six minutes concentrating. This creator displays proficiency, not an in-session treatment simulator.
