+10% to seduction, pick pockets and reviewed deception/sleight-of-hand skills; this power grants no skills.

percentages are automated. Other programs, remaining skill catalogs, repeated-program category choices, Street literacy trades and advancement remain unfinished.

Universal Speak Native Language (+25%) and Read/Write Native Language (+20%) remain source guidance. Native speaking base is unspecified; educated native literacy is 98%, and Street Schooled literacy is 30% +2% per level unless trading a skill. Their arithmetic interaction remains pending. Education bonuses apply once to scholastic skills; I.Q. bonuses apply once to all supported skills. Ordinary proficiency is capped at 98%.

High School does not permit Business, Medical Assistant or Communications (original printed 45 / PDF 46, restriction item 1). Honor-system choices stay saved without an ineligible scholastic bonus. Earlier exact pins require an explicit reviewed update.

Paramedic treatment procedures remain source guidance: serious injury/coma uses two successes out of three checks; a failed attempt can be retried by another character or after six minutes concentrating. This creator displays proficiency, not an in-session treatment simulator.

Pick Pockets: Failure leaves the item in place and has a 67% chance that the intended victim recognizes the attempt. The seduced-target check applies only when this character has successfully seduced that victim.

Seduction: Successfully seduced victims perform skills at half proficiency and take twice as long; they have no initiative, and initiative bonuses halve when attacked by someone other than the seducer.

Seduction: The seducer acts first against that victim; any roll above 4 succeeds. The victim cannot defend against the first attack and loses one action from surprise or horror. These target combat effects remain source guidance until Heroes combat support is complete.

Seduction: +5% Pick Pockets, Palming/planting, Cardsharp, Sing and Dance against a successfully seduced victim; only the available Pick Pockets context is projected here.

Seduction: One additional target may be influenced per three experience levels; Heroes advancement remains pending.

Seduction: Normal mortal M.A./P.B. bonuses stop at 30 even when a manual attribute value exceeds that limit; god/alien exceptions remain pending.
