Cybernetic Medicine (M.D. in Cybernetics): Surgery: bionic upgrade: 90% (+5% per level)

Recognize Quality of Bionics and Cybernetics: 66% (+3% per level)

Cybernetic Medicine: second training (bionic upgrade) (Training)

Medical Doctor: Treatment: 60% (+5% per level)

Medical Doctor: Animal treatment: 25% (+5% per level)

Bioware Mechanics: 45% (+5% per level)

Mechanical Engineer: 30% (+5% per level)

Mechanical Engineer: Repair, modification or construction: 30% (+5% per level)

Mechanical Engineer: Verify completed work: 30% (+5% per level)

Character notes (continued)

needs appropriate laboratory facilities and

components. Medical/cybernetic/bionic

contraband adds 20 to ordinary Find Contraband

only in that context. Professional

discounts: 35%, 50% for twelve hours of work (up

to 100,000 credits list value), 60% for local clinic

ownership/partnership. Repair price 25% of list,

typically another 25% for labor; source

time 1D6+2 hours per item. Restored MDC

costs 1000 credits/point, not above original.

Descriptive enhancements: bionic speed 20%,

PS 10%, range 10%, size/weight reduction 10%,

one extra feature per body area. Medical Doctor

receives no O.C.C. class bonus, including

retained duplicate related selections. Two

additional Technical choices; Basic/Expert

cost 1/2, fixed Knife strike +1.

Wandering: 6D6x100 credits and 2D6x1000

saleable goods. Optional starting

implants/accessories/optics/sensors and full

bionic construction remain required follow-up

content; this Human proof starts without

implants. Nonhuman and wider

equipment/proficiency catalogs remain open.

(Rifts - Ultimate Edition, class rules printed pp.

89, 90, 91).

Additional Technical skills: 2 of 2 distinct related

choices; 0 still required. Rifts - Ultimate Edition,

printed pp. 89, 90, 91, PDF pp. 92, 93, 94,

Cyber-Doc O.C.C. skills, bonuses and abilities.

Basic Mechanics: Maintain simple machinery

and appliances, read schematics, replace

common parts and assist with vehicle repairs.

Field repairs require suitable tools, materials

and time; situational penalties vary from -5% to

-40%, and extensive work requires a workshop.

(Rifts - Ultimate Edition, pp. 89, 90, 91).

Basic Electronics: Understand simple circuits,

wiring, schematics and appliance repair.

Commercial vehicle hot-wiring uses a -20%

situational penalty; military vehicles are outside

this basic skill. (Rifts - Ultimate Edition, pp. 89,

90, 91).

Find Contraband: Locate illegal dealers and

services; understand underworld practices,

prices and penalties. Dealers typically pay only

20% of retail for contraband. Adds +10% to I.D.

Undercover Agents. (Rifts - Ultimate Edition, pp.

89, 90, 91).

Cybernetic Medicine (M.D. in Cybernetics):

RIFTS CHARACTER SHEET - CONTINUATION

Skills and character notes

Diagnosis and nonsurgical treatment use the first percentage; complex surgery and implant removal/installation use the separate Surgery percentage. Ordinary bionic work has a 15% penalty. A second training selection plus Electrical Engineering removes the installation penalty and adds 10 to Surgery only. Advanced construction requires appropriate laboratory facilities and components; optional source repair/installation conditions remain descriptions. (Rifts - Ultimate Edition, pp. 89, 90, 91).

Recognize Quality of Bionics and Cybernetics: Assess condition, quality, fair price and capability of bionic/cybernetic devices; source-exclusive Cyber-Doc knowledge. (Rifts - Ultimate Edition, pp. 89, 90, 91).

Cybernetic Medicine: second training (bionic upgrade): This selection represents taking Cybernetic Medicine a second time. Together with Electrical Engineering, it removes the bionic installation penalty and grants 10 to the Surgery check. Repeated copies of this upgrade do not grant another bonus. It consumes one additional skill choice; it is separate from implanted components or bionic character construction. (Rifts - Ultimate Edition, pp. 313).

Electrical Engineer: Diagnose, repair, wire and build complex electrical equipment. Requires Advanced Mathematics and Literacy. Security bypass penalties are -20% for simple and -50% for complex systems, halved with Surveillance. Alien, Techno-Wizard and Bio-Wizard equipment carries -30% and may remain beyond repair. (Rifts - Ultimate Edition, pp. 308).

Bioware Mechanics: Identify, service and repair cybernetic and bionic machinery and electronics. This does not grant component design, biological Bio-System work or installation in a living body; installation requires Cyber-Doc training. Sophisticated or alien systems carry -20%. Requires Mechanical Engineer and Basic Mathematics. Field repairs require suitable tools, materials and time; situational penalties vary from -5% to -40%, and extensive work requires a workshop. (Rifts - Ultimate Edition, pp. 312).

Mechanical Engineer: Analyze, design, repair, build, modify or sabotage machinery. Make separate diagnostic, work and verification checks at the same proficiency. Requires Basic or Advanced Mathematics, Basic Electronics and Literacy; adds +5% once to Locksmith and Surveillance. Alien or unfamiliar machinery carries -30% and may remain beyond repair. Field repairs require suitable tools, materials and time; situational penalties vary from -5% to -40%, and extensive work requires a workshop. (Rifts - Ultimate Edition, pp. 312).

Experience: 4001 XP.

Combat conditions (Ultimate Edition pp. 341, 344-348, 361):

Shooting contexts are training examples; actual weapon modes, burst lengths, ammunition and capacity remain pending.

Gun shooting excludes P.P., general

hand-to-hand strike and strength damage

bonuses. Assassin's explicit gun-strike gains

apply separately from W.P.; bursts halve only

the W.P. contribution. Untrained shooters

cannot make aimed shots.

Gun dodge requires seeing the attacker and

knowing the shot is coming; subtract 10 within

10 feet or 5 within 50 feet. Athletics and

hand-to-hand dodge bonuses do not apply to

gunfire or energy blasts (p. 361).

Power punch uses two actions and doubles

base dice before adding the normal-human

strength bonus.

Other special hand-to-hand moves remain

pending.

RIFTS CHARACTER SHEET - CONTINUATION

Skills and character notes

Hand to Hand: Expert: Body flip/throw costs one action; victim loses initiative and one attack. A successful roll with impact halves the damage.

Hand to Hand: Expert: Power Kick takes two actions, doubles base kick dice and adds

P.S./Hand to Hand damage bonuses once (user-confirmed interpretation). It cannot combine with Leap Kick; knee and

non-damaging moves have no power variant.
