Two Ancient and two Modern W.P.s are free

initial choices; three additional initial W.P.s use

Related slots. Select at least two additional

Physical skills from initial Related training. Fixed

Body Building and Gymnastics do not fulfill this

requirement. Three dedicated W.P. awards at

level five do not free earlier paid training. Fixed

W.P. Shield starts at level two. Psychic path

may be chosen instead of rolled. Non-psychic

path is only for a character without prior innate

psionics. Conditional mounted/Zen/Psi-Weapon

activities remain source descriptions. Fixed

Demon/Monster Lore uses North America as the

representative region; retain another region in

identity notes. (Rifts - Ultimate Edition, class

rules printed pp. 66, 67).

Two distinct other languages: 2 of 2 distinct

other-languages choices; 0 still required. Rifts -

related choices; 0 still required. Rifts - Ultimate

Edition, printed pp. 66, 67, PDF pp. 69, 70,

entitlements.

Climbing: Climb sheer surfaces with appropriate

tools and techniques; rappelling includes

ascending and descending with ropes. Roll

every 20 feet; two consecutive failures cause a

fall. (Rifts - Ultimate Edition, pp. 66, 67).

Gymnastics: Primary percentage measures

sense of balance. Automatic kick at first level

does 2D4 S.D.C. damage. Basic climb and

prowl have no level growth; they yield to the

separately learned full skill, which receives the

source bonus instead. (Rifts - Ultimate Edition,

pp. 66, 67).

added to standing combat totals. (Rifts - Ultimate Edition, pp. 66, 67).

Land Navigation: Stay on course by landmarks, distance estimates, trail marking and observation. Does not require Literacy or Mathematics; symbolic map reading carries 20% penalty. Travel and drift remain descriptions. (Rifts - Ultimate Edition, pp. 66, 67).

Lore: Demons & Monsters: Know supernatural monsters, demons, powers, weaknesses and folklore of the retained geographic region. Different regions count as separate skill selections. (Rifts - Ultimate Edition, pp. 66, 67).

Trick Riding: Use the first percentage of a known Horsemanship skill for each stunt, including bareback/standing/sideways riding, quick mounting, leaps between mounts and hiding beside or beneath the animal. Without this skill, use half the second horsemanship percentage. Non-horse mounts halve the trick percentage unless Exotic Animals horsemanship is known. No independent base, growth or second IQ/class bonus is added. Uses current primary proficiency from Horsemanship: Cyber-Knight. (Rifts - Ultimate Edition, pp. 306).

Automobile: Drive manual or automatic cars, dune buggies, jeeps and small trucks. (Rifts - Ultimate Edition, pp. 318).

Rope Works: Choose, tie, weave and make rope or cord, recognizing knots and tensile strengths. Failed knots are loose or unreliable; bound characters have -10% to escape or slip the knots. Conditional outcomes remain descriptive. (Rifts - Ultimate Edition, pp. 325, 326).

Salvage: Find, identify, recover and evaluate wreckage, junk and spare parts. Rebuilding requires time, parts and the applicable skills. (Rifts - Ultimate Edition, pp. 326).

Motorcycles & Snowmobiles: Pilot motorcycles, dirt bikes, mopeds, snowmobiles, jet sleds, miniature ATVs and similar small vehicles. (Rifts - Ultimate Edition, pp. 319).

Basic Mechanics: Maintain simple machinery and appliances, read schematics, replace common parts and assist with vehicle repairs. Field repairs require suitable tools, materials and time; situational penalties vary from -5% to -40%, and extensive work requires a workshop. (Rifts - Ultimate Edition, pp. 312).

Class psychic status controls the single I.S.P. reserve and saving target. Natural powers are additional; their retained reserve is not added again.

Class psychic powers: Master Cyber-Knight psychic path; save target 10 (attribute/class bonuses apply separately).

used; 0 remaining. Level 2 additional Super

power: 1 of 1 choices used; 0 remaining. Level 6

additional Super power: 1 of 1 choices used; 0

Meditation: Meditation is a trance state of

consciousness in which the individual can calm

his emotions and focus on relaxation of mind

and body. In a meditative state, the psychic

finds peace and harmony between mind, body

and spirit, and it is in this state of being that he

can regenerate his Inner Strength (I.S.P.).

Recovers Base I.S.P. at a rate as indicated

under each psychic O.C.C., otherwise six I.S.P.

per hour of meditation. Learned at level 1.

Always known class grant; no elective choice

cost. Range: Self.; Duration: As needed; at least

one hour of meditation is required.; I.S.P.: None,

zero. (Rifts Ultimate Edition, Psionic Powers:

Meditation).

Cyber-Knight Psi-Sword: Source-owned

Psi-Weapon starts at 1D6 Mega-Damage,

adding 1D6 at levels 3, 6, 9, 12 and 15. From

level 3, a second Psi-Weapon may be created,

one in each hand. Master path adds another

1D6 at levels 2, 5, 9 and 13. Standard

blue-white sword appears instantly without an

action or duration limit. Non-sword forms cost

one creation action; unusual colors add another.

Reshaping costs two actions. Thrown forms,

moving parts and projectiles are unavailable.

Size and blunt or bladed shape do not change

damage. Metallic, black and earth colors are

unavailable. Pure white costs five creation

actions, one upkeep action each round and

imposes -10% to skills while present. These are

descriptive choices, not encounter automation.

Learned at level 1. Always known class grant;

no elective choice cost. I.S.P.: 0 (Rifts - Ultimate

Edition, Cyber-Knight psychic powers and

reserves).

Cyber-Knight Psi-Shield: Source-owned psychic

shield uses the Cyber-Knight class cost of 15

ISP. Shapes, timing, use and conditional

combat effects follow the class source guidance;

no encounter automation is implied. Learned at

level 1. Always known class grant; no elective

choice cost. I.S.P.: 15 (Rifts - Ultimate Edition,

Cyber-Knight psychic powers and reserves).

Bio-Regenerate (self): The ability to will oneself

free of disease or poison and back to health,

and heal physical damage and injury.

Unfortunately, this ability cannot be used to heal

others. The process requires one full minute of

concentration, which means the character

cannot use any other psionic power during that

time. Bio-Regeneration does not restore missing

limbs, but it does restore 2D6 Hit Points or 3D6

# RIFTS CHARACTER SHEET - CONTINUATION

## Skills and character notes

physical S.D.C. points per melee round. In addition, when cuts and scrapes are healed through Bio-Regeneration there is no scarring. This power can be used as often as once every two minutes (every eight melee rounds). Note: Recovering more than half of one's Hit Points or S.D.C. this way in less than an hour takes a toll on the character, causing some weakness for 1D4+2 hours: reduce the P.S., P.E. and Spd attributes by 30%. Adjust attribute bonuses accordingly. Learned at level 1. Range: Self.; Duration: Permanent.; I.S.P.: 6; Saving Throw: None. (Rifts Ultimate Edition, Psionic Powers: Bio-Regeneration).

Deaden Pain: The ability to deaden pain can be used as a painkiller which temporarily negates existing pain or as an anesthetic to be used for surgery. Learned at level 1. Range: Immediate proximity, touch or within 3 feet (0.9 m).; Duration: One hour per level of experience.; Length of Trance: Two minutes (8 melee rounds).; I.S.P.: 4 (Rifts Ultimate Edition, Psionic Powers: Deaden Pain).

Detect Psionics: Detect nearby psychic energy without pinpointing its location; estimate only weak, medium or strong potential. Directed at an individual, detect psychic potential, Group Mind Block or psionic possession without identifying specific powers. Learned at level 1. Range: Self. Sensing range is 30 feet (9 m) per level of experience.; Duration: One minute per level of experience.; I.S.P.: 6 (Rifts Ultimate Edition, Psionic Powers: Detect Psionics).

Exorcism: Expel a supernatural possessing spirit from a living person or animal; excludes symbiotes and psychic possession. After preparation, roll 28% +7% per additional level to expel it, then 21% +7% per additional level to send it home. Expulsion without banishment leaves the spirit free to seek another host; it must leave the area and cannot repossess the same victim for six months. Nega-Psychics and some powerful possessors halve these chances. The possessing force retains its powers but has half its attacks during the rite; assistants can defend the healer, and the attempt may be repeated. Learned at level 1. Range: Touch or within 8 feet.; Duration: Instant if successful.; Length of Trance: 30 minutes preparation plus 6D6 minutes with the living possessed person/animal.; I.S.P.: 10 (Rifts Ultimate Edition, Psionic Powers: Exorcism).

Healing Touch: The Healing Touch is a remarkable healing ability that can instantly heal cuts, burns, bruises and similar physical wounds. The touch restores 2D4 Hit Points or 2D6 S.D.C. The Healing Touch can only be used on other living creatures, never on the psychic himself. Learned at level 1. Range: Touch.; Duration: Instant, with lasting effects.;

## RIFTS CHARACTER SHEET - CONTINUATION

### Skills and character notes

Length of Trance: Two minutes (8 melee rounds).; I.S.P.: 6 (Rifts Ultimate Edition, Psionic Powers: Healing Touch).

Increased Healing: The healer is able to stimulate another person's healing energies, dramatically increasing one's recuperative powers. Hit Points and S.D.C. recovery are double the normal professional treatment rate.

That's recovery of 4 Hit Points a day for the first two days and 8 H.P. for each subsequent day until restored to full strength or the psionic energy fades, whichever comes first. S.D.C. is healed at a whopping 12 points per day from the very beginning. Learned at level 1. Range:

Touch or within 3 feet.; Duration: 2D4 days.;

Length of Trance: 1D6 hours.; I.S.P.: 10 (Rifts Ultimate Edition, Psionic Powers: Increased Healing).

Induce Sleep: This is not an offensive ability, but is intended to be a recuperative power to induce sleep on those who are ill, exhausted, or an insomniac. The person will fall into a normal, restful sleep from which he can be easily roused. Unwilling victims of the Induce Sleep psi-power get a +5 bonus to save. A character must want rest (can not be involved in combat or some other activity and be forced to fall

asleep). Learned at level 1. Range: Touch or within 6 feet (1.8 m).; Duration: One hour per level of experience (or until awakened).; Length of Trance: Two minute preparatory meditation.;

I.S.P.: 4; Saving Throw: Standard; unwilling victims are +5 to save vs psychic attack. (Rifts Ultimate Edition, Psionic Powers: Induce Sleep).

Psychic Diagnosis: The psychic healer can sense physical pain and damage, external and internal injury, disease and possession with absolute clarity. This pinpoint accuracy enables the character to suggest treatment or to conduct psychic surgery. Learned at level 1. Range:

Touch or within 3 feet (0.9 m).; Duration: Immediate knowledge.;

Length of Trance: 2D4 melees of meditation/focus.;

I.S.P.: 4; Saving Throw: None. (Rifts Ultimate Edition, Psionic Powers: Psychic Diagnosis).

Electrokinesis: Control electricity through five distinct applications: electrical resistance, an S.D.C. discharge, an M.D. blast, device controls, and sensing electricity. Resistance ignores up to 60000 volts and halves greater, lightning, and magic electricity. Discharge causes a jolt or up to 1D6 S.D.C.; a blast inflicts 1D6, 2D6, or 3D6 M.D. Device manipulation permits twelve electrical functions per melee without seeing the device. Sense Electricity starts at 55% and gains 5% per additional level; failure senses only 1D6x10% of sources.

Learned at level 6. Resistance: Self; 3 minutes per level; 4 I.S.P.; Discharge: Touch or 2 feet; instant; 2 I.S.P. per discharge; M.D. blast:

Telemechanics: Communicate mentally with a machine and understand its operation. Ordinary

machines provide 80% complete mechanical

knowledge; artificial intelligence provides 88%

skill knowledge of operation, repair, access, and

programming. This is a temporary

machine-specific psychic understanding, not

permanent acquisition of every engineering skill.

Learned at level 6. Range: Touch or up to 5

feet; Duration: 10 minutes +2 minutes per level;

Combat conditions (Ultimate Edition pp. 341, 344–348, 361):

Shooting contexts are training examples; actual weapon modes, burst lengths, ammunition and capacity remain pending.

Gun shooting excludes P.P., general

hand-to-hand strike and strength damage

bonuses. Assassin's explicit gun-strike gains

apply separately from W.P.; bursts halve only

the W.P. contribution. Untrained shooters

cannot make aimed shots.

Gun dodge requires seeing the attacker and

knowing the shot is coming; subtract 10 within

10 feet or 5 within 50 feet. Athletics and

hand-to-hand dodge bonuses do not apply to

gunfire or energy blasts (p. 361).

Power punch uses two actions and doubles

base dice before adding the normal-human

strength bonus.

Other special hand-to-hand moves remain

pending.

Hand to Hand: Martial Arts: Body flip/throw

costs one action; victim loses initiative and one

attack. A successful roll with impact halves the

damage.

Hand to Hand: Martial Arts: Power Kick takes

two actions, doubles base kick dice and adds

P.S./Hand to Hand damage bonuses once

(user-confirmed interpretation). It cannot

combine with Leap Kick; knee and

non-damaging moves have no power variant.

## RIFTS CHARACTER SHEET - CONTINUATION

### Skills and character notes

Gymnastics: PE +2; PP +1; PS +2; S.D.C.

bonus +12 (dice 6, 6); roll with impact +2. Rifts - Ultimate Edition, p. 317.

Swimming: . Rifts - Ultimate Edition, p. 317.

Surface swimming covers three times P.S. in yards/meters each melee round for P.E. minutes before fatigue. No attribute, S.D.C. or combat bonus is granted. A failed roll leaves the swimmer afloat without covering distance. Three consecutive failed rolls cause submersion and drowning unless rescued. Non-powered M.D.C. armor swimming requires staying afloat, depending on armor weight; no buoyancy formula is provided. Power armor swimming is permitted. Surface swimming has the fatigue rate of running and is medium to heavy exertion, especially fast or long distances. Conditional storm and armor checks are shown separately; they do not automatically resolve simultaneous conditions or other armor movement penalties.

Surface swimming: Routine pace until fatigue; distance uses current effective P.S., duration uses current effective P.E.

Athletics (General): PS +1; SPD +1 (dice 1);

S.D.C. bonus +2 (dice 2); dodge +1; parry +1;

roll with impact +1. Rifts - Ultimate Edition, p.

316. Each specific Physical skill applies once.

Bonuses from different skills accumulate. S.D.C.

adds to separately generated starting resources.

Running: PE +1; SPD +10 (dice 2, 4, 1, 3);

S.D.C. bonus +4 (dice 4). Rifts - Ultimate

Edition, p. 317. Physical bonuses apply once

and combine with other reviewed training.

Running routine distance uses current effective

P.E.; maximum-speed distance is one third of

the half-speed limit.

Running at half speed: Running routine limit

from current effective P.E. and Spd.

Running at maximum speed: Running routine

limit from current effective P.E. and Spd.

Saving fields show reviewed bonuses.

Save vs illusions: +0; Save vs disease: +2; Save

vs pain: +0; Save vs fatigue: +0

The P.E. magic bonus does not apply to

demonic curses or possession.

High-M.E. possession bonuses are restricted to

specified supernatural beings; they are not

granted to this ordinary Human path.
